

1/4in 150mm PH2DE Screwdriver Bit

This power driver bit is made from S2H1 material for enhanced durability and precision. It measures 1/4 * 150 * PH2DE, making it suitable for a variety of power driver applications.

Product Overview

Professional Grade Screwdriver Bit

This high-quality power driver bit is engineered for demanding professional applications. Manufactured with durable S2H1 material, it provides superior resistance to wear and breakage during high-torque operations. Its precision design ensures a perfect fit for consistent performance across various industrial and construction tasks.

Technical Specifications

Material Grade

S2H1 Steel

Drive Shank Size

1/4 inch

Total Length

150 mm

Bit Type

PH2DE

Origin

Japan

Application Details

Recommended Use

- Professional industrial use
- Power driver applications
- DIY projects
