

# 150lb Flanged Y-Type Strainer

This Y-type strainer protects pumps, meters, control valves, steam traps, regulators, and other process equipment from damage. It is constructed from durable materials, features a flanged connection for easy installation and maintenance, and is rated for 150lb pressure.

## Overview

### Industrial Y-Type Strainer

This 150lb flanged Y-type strainer is engineered to protect critical process equipment, including pumps, meters, control valves, and steam traps. By effectively filtering out dirt, rust, and other damaging debris, it ensures the longevity and reliability of your industrial systems. Its robust construction and standardized flanged connection allow for straightforward installation and maintenance in demanding environments.

## Technical Specifications

### Pressure Rating

**150 lb**

Pressure Class

### Connection Type

Flanged

### Body Material

WCB, Stainless Steel, Cast Steel

## Applications

### Protects Equipment

- Pumps
- Meters
- Control Valves
- Steam Traps
- Regulators
