

150mm Magnetic Parts Tray

This 150mm magnetic tray is designed to securely hold small metallic parts and tools. Its magnetic base adheres to ferrous metal surfaces, providing a stable platform.

Overview

Professional Magnetic Parts Tray

This 150mm round magnetic tray is constructed from high-quality stainless steel, offering excellent durability and corrosion resistance. It features a powerful magnetic base designed to securely hold small metallic parts, screws, and tools, preventing loss during complex repair or assembly tasks. The magnetic base also allows the tray to adhere firmly to any ferrous metal surface, providing a stable and accessible storage solution in demanding workshop environments.

Key Specifications

150 mm

Diameter

14 Days

Delivery Lead Time

Main Features

- High quality stainless steel construction
- Strong magnetism for secure parts retention
- Adheres to ferrous metal surfaces
- Easy collection of small parts during repairs
- Corrosion resistant and easy to clean

Technical Details

Material	Stainless Steel
Item Number	670601
Barcode	6959820845336

Logistics & Packaging

Packaging Material

Triple Wall Corrugated Carton

Carton Specifications

Metric	Value
Inner Quantity per CTN	12
Outer Quantity per CTN	24
Gross Weight per CTN (kg)	12
Net Weight per CTN (kg)	11
Carton Dimensions (L x W x H cm)	42 x 42 x 20

Applications

Ideal Applications

Automotive Repair, Electronics Assembly, Workshop Organization, Hardware Storage
