

16-inch Children's Bicycle with Coaster Brake

This children's bicycle features a 16-inch steel frame and a monocoque design. It is equipped with both a rear caliper brake and a rear coaster brake for reliable stopping.

Overview

Designed for Young Riders

This 16-inch children's bicycle is engineered for safety, durability, and ease of use. Featuring a robust steel monocoque frame and a dual-braking system, it provides a stable and secure platform for children learning to ride. The inclusion of pneumatic air tires ensures a smooth and comfortable experience on various surfaces.
