

1600W 110mm Stone Cutter

This stone cutter is equipped with a 1600W motor and a 110mm diamond blade. It is designed for precise and efficient cutting of marble and other stone materials.

Product Overview

Professional Stone Cutting Performance

Designed for precision and efficiency, this 1600W stone cutter is an essential tool for stone fabricators and tile installers. It features a robust motor and adjustable cutting depth to handle marble and various stone materials with ease. The ergonomic design ensures operator comfort and control during demanding cutting tasks.
