

160mm Multi Saw Blade with 24 Teeth

This circular saw blade has a 160mm diameter and 24 teeth. It is suitable for multi-purpose sawing applications.

Product Overview

Professional Multi-Purpose Sawing Solutions

This high-performance multi-purpose saw blade is engineered for precision and durability in demanding industrial environments. Designed for compatibility with various shearing and metal forming machines, it ensures clean incisions and consistent cutting performance. With a robust plate design and optimized tooth count, this blade is an essential component for professional metalworking and fabrication workflows.

Technical Specifications

Available Blade Configurations

Order No.	Diameter (mm)	Kerf/Plate (mm)	Teeth	Bore (mm)
NF-10030Q	150	1.5/1.0	48	16
NF-11040Q	160	1.5/1.0	48	20
NF-11040Q	180	1.5/1.0	60	16
NF-11060Q	200	1.5/1.0	64	20
NF-11540Q	230	1.5/1.2	80	16
NF-11560Q	250	1.5/1.2	80	20
NF-18060Q	250	1.5/1.2	100	25.4

Primary Applications

Shearing Machines, Metal Forming Machines, Multi-purpose Cutting
