

# 16mm Component Feeder for Siemens X Series

This 16mm component feeder is designed for Siemens X Series placement machines. It ensures the precise and consistent delivery of 16mm components for optimal performance in high-speed assembly processes.

## Product Overview

Detailed view of the 16mm component feeder, part number 00141272-06.

## High-Precision Component Feeding

This 16mm component feeder is engineered for automated electronic assembly systems. It ensures precise and reliable delivery of components, which is essential for maintaining optimal performance in high-speed production environments. With its robust construction, this unit helps minimize downtime and enhances overall assembly throughput.

## Technical Specifications

|                      |             |
|----------------------|-------------|
| Part Number          | 00141272-06 |
| Feeder Size          | 16 mm       |
| Series Compatibility | X Series    |

## Product Compatibility

### Available Feeder Range

| Size | Part Numbers                              |
|------|---|
| 8mm  | 00141270 / 00141290 / 00141269 / 00141289 |
| 12mm | 00141271 / 00141291                       |
| 16mm | 00141272 / 00141292                       |
| 24mm | 00141273 / 00141293                       |
| 32mm | 00141274 / 00141294                       |
| 44mm | 00141275 / 00141295                       |
| 56mm | 00141276 / 00141296                       |
| 72mm | 00141277 / 00141297                       |
| 88mm | 00141278 / 00141298                       |
