

16V Cordless Drill with Lithium-Ion Battery

This cordless drill features a 16V lithium-ion battery pack for high performance. It has variable speed settings and an ergonomic design, making it suitable for drilling and screwdriving applications.

Overview

High-Performance 16V Cordless Drill

This heavy-duty 16V cordless drill is designed for professional drilling and screwdriving applications, featuring a high-performance 1500mAh lithium-ion battery. It offers a dual-speed range for precise control and a versatile 0.8-10mm chuck to accommodate various bit sizes. The kit comes complete with two batteries and a comprehensive accessory set, all housed in a durable BMC carrying case for maximum portability and protection.
