

## 1.7L Electric Kettle with Automatic Shut-Off

This 1.7L electric kettle boils water rapidly with its 1500-watt power rating. It includes a detachable base for cordless operation, a concealed heating element, and an automatic shut-off function for safety.

### Product Overview

#### Efficient Boiling Solution

This 1.7L cordless electric kettle offers a reliable and efficient boiling experience for any kitchen environment. Featuring a rapid 5-6 minute boil time and robust safety mechanisms like boil-dry and overheat protection, it ensures both convenience and peace of mind. The design includes a 360-degree power base and a clear water level scale, making it user-friendly and easy to operate.
