

1.7L Electric Kettle with Stainless Steel Lid

This electric kettle quickly boils water with its 2000-2400W power. It features a 360-degree rotational base, a removable filter, and a concealed heating element for easy cleaning.

Product Overview

Efficient Boiling Performance

This 1.7L electric kettle is designed for rapid and efficient water heating, making it an ideal addition to any modern kitchen. Featuring a durable stainless steel lid and a concealed heating element, it ensures both longevity and easy maintenance. With its 360-degree rotational base and integrated water level gauge, this appliance combines user-friendly operation with high-performance functionality.

Technical Specifications

Capacity

1.7 L

Max Capacity

Power Rating

2400 W

Standard Power

3000 W

Optional Power

Voltage

220V-240V

Frequency

50 Hz

Features

Key Features

- OTTER controller
- 360-degree rotational base
- Concealed heating element
- Pull-off stainless steel lid
- Water level gauge
- Removable filter
- Neon power indicator
- Cord storage
