

1.7L Stainless Steel Electric Kettle

This electric kettle is designed for rapid water boiling. It features a stainless steel body, a concealed heating element, and a water level indicator, ensuring both style and functionality.

Overview

Efficiency and Design

The 1.7L Stainless Steel Electric Kettle is a robust solution designed for rapid water boiling in professional or domestic environments. Its durable stainless steel body is complemented by modern black accents, ensuring both longevity and a professional aesthetic. With integrated safety features such as automatic shut-off and boil-dry protection, it offers reliable performance for high-demand settings.
