

180mm Variable Speed Polisher

This polisher is designed for a variety of surface finishing applications. It features a powerful motor for consistent performance and variable speed control for optimal results on different materials.

Overview

Professional Polishing Performance

The 180mm Variable Speed Polisher is a robust tool engineered for high-quality surface finishing applications. Featuring a powerful motor and precise variable speed control, it provides consistent performance across a wide range of materials. Its ergonomic design is specifically crafted to ensure comfortable handling and reduced fatigue during extended professional use.

Technical Specifications

Polishing Pad Diameter	180 mm
Power Supply Voltage	230 V

Features

Key Features	Variable Speed Control, Ergonomic Design, Robust Motor
--------------	--

Application

Suitable For

- Professional Surface Finishing
- DIY Projects
- Versatile Material Polishing
