

18V Lithium-Ion Cordless Electric Drain Cleaner with 25-Foot Cable

This cordless drain cleaner utilizes an 18V lithium-ion battery for portable operation. It features a 1/4-inch diameter cable that extends up to 25 feet for reaching into pipes and removing blockages.

Overview

Professional Cordless Drain Cleaning Solution

This 18V Lithium-Ion cordless electric drain cleaner is designed for efficient clearing of clogs in sinks, bathtubs, and drains up to 2 inches wide. Featuring a powered forward and reverse feeding mechanism, it significantly reduces user fatigue during operation. The tool is engineered with a sturdy base to protect delicate surfaces and an integrated rear drain port to prevent water accumulation within the drum.
