

1kW Portable Gasoline Generator Set

This 1kW generator set is designed for portability and stable performance. It features both 220V AC and 12V DC outputs.

Overview

Reliable Portable Power

This 1kW portable gasoline generator set is designed to provide dependable power for various applications. Featuring a 4-stroke, 79cc single-cylinder engine, it delivers a rated power output of 900W with a maximum capacity of 1000W. Its compact, portable design and reliable recoil start make it an ideal solution for users needing consistent electricity on the go.
