

2-Ton Hydraulic Floor Jack for Auto Lifting

This 2-ton hydraulic jack is designed for lifting vehicles. It features a compact design for easy storage and maneuverability.

Overview

Compact Hydraulic Lifting Solution

This 2-ton hydraulic floor jack is engineered for efficient vehicle lifting in professional garages, workshops, and for roadside assistance. Its compact design ensures easy storage and maneuverability while maintaining robust lifting performance. Built with durability in mind, it includes essential safety features like an integrated overload valve and a swivel saddle for precise positioning.
