Product Overview

Reliable Power Solution

This 20 kVA diesel generator set is engineered for consistent performance in diverse environments, from commercial buildings to remote industrial sites. It features a robust, water-cooled design with advanced control capabilities, ensuring stable power delivery and ease of maintenance. With flexible configuration options including open or silent enclosures, this unit provides a dependable solution for both backup and primary power requirements.

Technical Specifications

Rated Output

20 kVA

Rated Output

Rated Speed	1,500 / 1,800 rpm
Cooling Method	Closed water-cooled or air-cooled
Noise Level	65 dB

Electrical System

Protection Class	IP23
Voltage Range	110-277V (L-N) / 220-480V (L-L)
Rated Frequency	50/60 Hz

Control Panel Features

Standard Instrumentation

- Voltmeter with selector switch
- Ammeter with selector switch
- Frequency meter
- Current transformers
- MCB with overload and short-circuit protection

Logistics and Compliance

Certifications	ISO9001-2008, ISO14001-2004, CE, SASO, SONCAP, RETIE
Lead Time	25-45 working days
Minimum Order Quantity	20FT container (mixed models)
