

20-Ton Battery Powered Transfer Cart for Assembly Lines

This battery-operated transfer cart is designed for heavy-duty material handling. It offers flexible movement of heavy loads without the need for external power sources, making it suitable for indoor and outdoor applications.

Product Overview

Heavy-Duty Material Handling Solution

This 20-ton battery-powered transfer cart is designed for efficient material handling within modern factory bays and warehouses. Powered by an onboard storage battery, it eliminates the need for cables, allowing for unrestricted movement and seamless automatic operation. Its robust design is engineered for heavy-duty tasks, ensuring reliable transport of materials and equipment across assembly lines.

Technical Specifications

Load Capacity

20 t
Capacity

Power Source	Storage Battery
Operation Type	Automatic
Mounting	Rail-mounted
Running Distance Limit	No

Certifications

Compliance Standards

CE • ISO 9001 • SGS
