Overview

Professional Industrial Heat Gun

This 2000W industrial heat gun is engineered for versatility and precision in demanding environments. Featuring variable temperature control and dual fan settings, it provides consistent heat for tasks ranging from paint stripping and decal removal to shrinking wire wraps and thawing pipes. Designed with user comfort and safety in mind, it includes an ergonomic soft-grip handle, overload protection, and a stable base for hands-free stationary operation.

Technical Specifications

Overview of the industrial heating tool series capabilities.

Model	PLD2033
Power Consumption	2000 W
Voltage	220-240V
Frequency	50 Hz

Performance Metrics

Detailed view of the dual temperature and airflow settings available on the unit.

Operating Modes

Setting	Temperature Range	Air Flow
I	50-450°C	250 L/M
II	60-600°C	500 L/M

Key Features

Safety & Ergonomics

Overload Protection, Constant Heat Control, Stationary Use Capable, Ergonomic Soft Grip

Applications

Recommended Applications

- Stripping paint and varnish
- Removing decals
- Shrinking wire wraps
- Loosening fittings
- Thawing pipes
