Overview

High-Performance 200cc Sport Scooter

This 200cc sport scooter is engineered for dynamic urban mobility, featuring a DOHC four-valve water-cooled engine that delivers superior power and efficiency compared to traditional two-valve models. Equipped with a Marelli closed-loop EFI system and advanced ABS braking, it offers a sophisticated, safe, and responsive riding experience. The design prioritizes handling with a lightweight frame, adjustable suspension, and a sport-oriented aesthetic, making it an ideal choice for riders seeking both performance and reliability.

Engine & Performance

Engine Specifications

Attribute	Value
Engine Type	1-cylinder, 4-stroke, DOHC, 4-valve, water-cooled, EFI
Displacement	188.6 cc
Max Power	14.1 kW / 8250 rpm
Max Torque	16.5 N.m / 6500 rpm
Compression Ratio	12.1:1

Performance Metrics

110 km/h

Max Speed

2.8 L/100km

Fuel Consumption

7.8 L

Fuel Tank

Safety & Technology

Braking System

- Front: 267mm single-disc with double-piston calipers
- Rear: 220mm single-disc with single-piston caliper
- ABS anti-lock braking system included

Safety Features

ABS, Oil Pressure Alarm, Waterproof ECU Cover, Variable Backlight Dashboard

Handling & Chassis

Chassis & Handling

- Tapered needle roller bearing steering
- Adjustable single-center rear shock absorber
- Lightweight high-strength electrophoresis frame
- Handlebar balancer for reduced vibration

Tires & Clearance

Feature	Specification
Front Tire	120/70-13
Rear Tire	130/70-13
Ground Clearance	130 mm

Dimensions

Dimensions & Weight
