

200W 5R Beam Light with 16 x 3W LEDs

This professional stage lighting fixture is designed for entertainment applications. It features a 200W 5R Philips lamp for a powerful beam, plus 16 x 3W LEDs for lighting effects and color mixing.

Overview

Professional Beam Lighting Solution

This high-performance beam light combines a powerful 200W 5R Philips lamp with 16 x 3W tricolor LEDs to deliver exceptional brightness and versatile color mixing capabilities. Designed for professional stage applications, it offers precise beam control, dynamic gobo effects, and high-speed color switching. With advanced features like overheat protection and automatic repositioning, this fixture is built for reliability in demanding concert, theater, and club environments.
