Overview

Versatile Portable Power

This portable power station features a 230Wh lithium battery and a 200W continuous output, making it an ideal solution for outdoor adventures and emergency home backup. It utilizes a pure sine wave inverter to provide clean, stable power for sensitive electronics and small household appliances. With multiple charging inputs and a wide array of output ports, it offers flexible power management for all your mobile devices and essential gear.

Battery Specifications

Parameter	Value
Battery Type	18650 Lithium
Capacity	230Wh (11.1V 20.8Ah)
Inverter Type	Pure Sine Wave

Charging Inputs

- DC Input (15V/4A, 52W Max)
- Solar Panel (PV) Input (17V)
- Car Charger

Outputs

Available Output Ports

Port Type	Quantity	Specifications
AC Wall Outlet	1	110V, 60Hz, 200W
USB-A (QC 3.0)	3	5-12V, up to 3A (54W Total)
USB-C (PD 3.0)	1	5-12V, up to 3A (18W)
DC Ports	2	12V, up to 5A
Cigarette Lighter	1	12V, up to 10A

Environment & Safety

Operating Temperature Range

- Charging: 32 to 113°F (0 to 45°C)
- Discharging: 14 to 104°F (-10 to 40°C)

Features

Special Features

Pure Sine Wave, Wireless Charging (5W), LED Lighting, SOS Mode, Silent Operation

Accessories

Included Accessories

- User's Manual
- 110V AC Wall Plug Adapter
- 18V Cable with MC4 Connector
- 12V Car Charger Cable
