

20kW Electric Power Generator

This 20kW generator is designed for electric power transmission and distribution. It features a control panel for monitoring and operation, multiple power outlets, and wheels for mobility.

Overview

Reliable 20kW Power Generation

This 20kW electric power generator is engineered for consistent and dependable performance in demanding environments. Designed with a focus on durability, it guarantees over 1000 hours of continuous working time. The unit features an advanced computer control panel for precise monitoring and is built for easy maintenance, ensuring minimal downtime for professional operations.
