Product Overview

Professional Performance Cordless Hammer

This high-performance cordless rotary hammer drill features a brushless motor, providing superior efficiency, extended tool life, and reduced noise during operation. Designed for versatility, it includes an innovative 4-function system that allows for seamless switching between drilling, hammer drilling, pure hammering, and vario-lock rotation stop. With an anti-vibration handle and built-in LED lighting, this tool is engineered to enhance user safety and comfort in demanding construction environments.

Technical Specifications

Motor Technology

Brushless Motor

Initial Battery Voltage

20 V

Battery Capacity

4 Ah

Key Features

Available Operating Modes

- Drilling
- Hammer & Drilling
- Hammer
- Vario-lock & rotation stop

User Convenience

- Built-in LED Work Light
- Stepless Variable Speed Switch
- Battery Capacity Indicator

Safety & Control

Safety Clutch, Anti-Vibration Handle, Short-circuit Protection, Constant Speed Control
