

20V Cordless Drill Driver with Brushless Motor

This 20V lithium-ion cordless drill driver is designed for various drilling and driving applications. It features a brushless motor for enhanced efficiency and durability.

Overview

High-Performance 20V Brushless Drill Driver

This 20V cordless drill driver is engineered for professional drilling and driving applications, featuring a high-efficiency brushless motor for extended durability. It offers precise control with 21+1 torque settings and a dual-speed gearbox to handle various materials with ease. The ergonomic design combined with an integrated LED light ensures comfortable and accurate operation even in demanding work environments.

Performance

Performance Highlights

55 Nm

Max Torque

20 V

Voltage

1800 RPM

Max Speed

Technical Specifications

No-Load Speed

- Low: 0-400 rpm
- High: 0-1800 rpm

Torque Adjustment

21+1 settings

Hardware & Build

Motor Technology

Brushless Motor

Chuck Specification

2-13mm metal keyless chuck

Included Features

Impact Function, Side Handle, LED Light, Adjustable Clutch

Power System

Battery Chemistry

Lithium-Ion
