

20V Cordless Impact Drill Driver Kit with 2 Batteries

This cordless impact drill driver is designed for a variety of drilling and fastening applications. It features a 20V lithium-ion battery for reliable power and extended runtime.

Overview

Versatile Cordless Performance

This 20V cordless impact drill driver kit is engineered for professional drilling and fastening applications. Featuring a high-performance lithium-ion battery system, it offers extended runtime and quick charging capabilities. The tool includes an integrated impact function for tough materials, variable speed control, and an ergonomic design for comfortable, prolonged use.

Technical Specifications

Maximum Initial Voltage	20 V
Nominal Voltage	18 V

Power & Battery

Battery Capacity

2 Ah Battery Capacity	2 pcs Batteries Included
---------------------------------	------------------------------------

Quick Charge Time	1 hour
-------------------	--------

Features

Key Features

- Built-in LED work light
- Two-speed powder metallurgy gearbox
- Impact drilling function
- Spindle lock for quick bit changes
- Belt clip for high-altitude operation
- Short circuit protection
- Battery capacity indicator

Compliance & Protection	Short Circuit Protection, Lithium-Ion Technology
