

20V Cordless Rotary Hammer Drill with Brushless Motor

This 20V rotary hammer is designed for drilling and chiseling in concrete and masonry. It features a brushless motor for increased efficiency and longer runtime, as well as a 24mm chuck.

Product Overview

Professional Performance

This 20V Li-ion Brushless 24mm Rotary Hammer is engineered for heavy-duty drilling and chiseling tasks in concrete, brick, and masonry. Featuring an advanced brushless motor, it delivers increased operational efficiency and extended runtime. The tool includes an integrated anti-vibration system to enhance user comfort, making it an ideal choice for demanding, long-duration professional projects.
