

20V Material Mixer

This 20V mixer is suitable for mixing paints, adhesives, and construction materials. Its robust motor delivers consistent torque, while variable speed settings accommodate different material viscosities.

Overview

Professional 20V Cordless Material Mixer

This 20V cordless material mixer is engineered for efficiency and versatility, making it an ideal choice for mixing paints, adhesives, and various construction materials. Featuring a variable speed motor and a robust M14 connection, it ensures consistent, smooth results while minimizing splashing. Designed for demanding job sites, this lightweight tool reduces user fatigue during extended operation.

Performance

Voltage	20 V
No Load Speed	700 RPM
Stir Wheel Diameter	120 mm
Connection Type	M14 thread

Power System

Charger Specifications

1.5 h Charging Time	3.5 A Output Current	1.5 m Cable Length
