

21L Mini Display Cooler for Cosmetics

This 21L mini display cooler is designed for storing and showcasing makeup goods and other temperature-sensitive items. It features a stainless steel frame and a glass door for clear visibility of the contents.

Product Overview

Professional Cosmetic Display Solution

This 21L mini display cooler is specifically engineered for storing and showcasing temperature-sensitive makeup and skincare products. Featuring a durable stainless steel frame and a clear glass door, it ensures contents remain visible while being protected. The integrated internal LED lighting enhances product presentation, making it an ideal choice for countertop displays in retail or professional settings.
