

# 22-Tine Metal Garden Rake with Wooden Handle

This garden rake is designed for efficiently gathering leaves, grass clippings, and other garden debris. It features 22 flexible tines made of durable metal and a long, lightweight wooden handle.

## Overview

### Professional 22-Tine Garden Rake

This garden rake is designed for efficient maintenance of outdoor spaces, featuring 22 flexible tines that effectively gather leaves and debris without damaging lawns. The high carbon steel head provides durability and strength, while the long wooden handle ensures ergonomic operation for both professional and home use. It offers a balanced combination of lightweight handling and robust construction for reliable performance.
