

# 220V High Capacity Voltage Stabilizer

This voltage stabilizer helps maintain a stable 220V output. It is suitable for home appliances and other equipment requiring consistent voltage.

## ADDITIONAL IMAGES

## Product Overview

### High-Performance Voltage Regulation

This high-capacity voltage stabilizer is engineered to provide a stable 220V output, protecting sensitive home appliances and industrial equipment from damaging voltage fluctuations. Designed for reliability, the unit features robust construction and is available with either EI or toroidal transformer options. It is an ideal solution for regions with unstable power grids, ensuring consistent performance and equipment longevity.

## Technical Specifications

### Rated Capacity

**5000 VA**  
Capacity

### Electrical Input/Output

Parameter	Value
Input Voltage	220V - 240V
Output Voltage	220V
Frequency	50Hz / 60Hz

### Transformer Material

- 100% Aluminum EI Transformer
- 100% Aluminum Toroidal Transformer

## Compliance & Quality

### Documentation Support

Form A • Certificate of Origin (C/O) • Testing Report

### Certifications

CE, ISO9001, SONCAP

## Commercial Terms

### Monthly Production Capacity

20000 pcs

### OEM/Logo Customization

Available for orders over 500 units per capacity

### Mass Production Lead Time

25-30 days

### Payment Terms

T/T, 30% deposit and 70% balance before shipment
