Product Overview

High-Performance Cleaning Solution

This high-pressure washer is engineered for demanding cleaning tasks in both industrial and domestic environments. Featuring a powerful 2300W quadropole motor and a maximum output of 120 Bar, it delivers consistent and reliable cleaning force. The system includes a comprehensive accessory kit, ensuring versatility for cleaning vehicles, equipment, and outdoor surfaces.

Technical Specifications

Maximum Pressure	120 Bar
Input Power	2300 W
Operating Voltage	220V-240V
Rated Flow	7 L/min
Maximum Flow	8 L/min
Total Weight	55 KG

Features

Intelligent Control

Intelligent Digital Display • Auto-Stop Function

Motor Type	Quadropole Motor
