Product Overview

Industrial Push Button Switch

This 22mm flush push button switch is engineered for high-performance industrial control applications, including power stations, communication networks, and distribution cabinets. Built with a high-grade anti-flame plastic body and specialized silver alloy contacts, it provides superior durability and resistance to electrical erosion. Designed for reliability in demanding environments, the switch features a waterproof construction and complies with international safety standards including CE and RoHS.

Technical Parameters

Product structure and model identification guide for the push button series.

Electrical Ratings

660 V

Rated Insulation Voltage

10 A

Heating Current

2.5 kV

Withstand Voltage

Performance Specifications

Parameter	Specification
Insulation Resistance	e5M $\text{\textcircled{C}}$
Contact Resistance	d2m $\text{\textcircled{C}}$
Brightness (Lamp)	60cd/m ²
Voltage Wave Tolerance	$\pm 20\%$

Certifications & Compliance

Certifications

CE, RoHS, ISO9001:2015, UL, IEC60947-5-1

Mechanical Details

Mechanical Life

- Pushbutton: 1,000,000 operations
- Selector switch: 500,000 operations

Applications

Suitable Environments

Distribution Boxes, Distribution Cabinets, Control Cabinets, Power Stations, Communication Networks
