

230x6x22mm Grinding Wheel for Stone

This grinding wheel has dimensions of 230x6x22mm and is designed for stone applications. It is constructed with C30N8BF abrasive and is rated for a maximum RPM of 6,640 and a maximum speed of 80 M/S.

Overview

Professional Stone Grinding Solution

This high-performance grinding wheel is specifically engineered for demanding stone applications, providing efficient material removal and a long service life. It features a robust C30N8BF abrasive construction, ensuring consistent results across various masonry and stone surfaces. Designed with safety and precision in mind, it meets rigorous international standards for professional industrial use.

6640 RPM

Max Rotation Speed

80 M/S

Max Linear Speed

230 mm

Outer Diameter

Technical Specifications

Dimensions

Measurement Type	Metric (mm)	Imperial (inch)
Diameter	230mm	9"
Thickness	3mm	1/8"
Bore Size	22mm	7/8"

Abrasive Material	C30N8BF
Part Number	XK06-011-00050

Compliance & Safety

Safety Guidelines

- Do not exceed maximum rated speed
- Ensure correct mounting before use
- Always operate with a safety guard
- Use appropriate personal protective equipment

Certifications & Standards	MPA11206, EN 12413, ISO9001
