Product Overview

Professional Abrasive Solution

This high-quality 240 grit abrasive paper is engineered for consistent performance in surface finishing and material removal tasks. Its durable backing ensures longevity, while the uniform grain distribution provides reliable cutting action. Suitable for both manual hand sanding and professional power sanding tools.

Technical Specifications

Primary Uses

- Surface smoothing
- Material removal
- Surface preparation for finishing
- General-purpose sanding

Tool Compatibility

Hand sanding • Power tools

Grit Rating

240

Compatible Materials

Wood, Metal, Automotive
