

25-Piece 1/2-Inch Drive Socket Set

This 25-piece socket set features a 1/2" drive, providing robust performance for a variety of fastening tasks. The set includes a selection of sockets in various sizes, extension bars for reaching recessed fasteners, a ratchet handle for efficient tightening and loosening, and a T-handle for added torque.

Product Overview

Professional Grade Socket Set

This 25-piece 1/2-inch drive socket set is engineered for robust performance in automotive repair and general maintenance tasks. Constructed from durable chrome vanadium steel, the set includes a comprehensive range of standard sockets from 10mm to 32mm. Featuring a quick-release ratchet with a reversing lever for efficient one-hand operation, this kit is designed for reliability and ease of use in professional and DIY environments.
