

25-Ton Hydraulic Log Splitter

This 25-ton log splitter is a robust machine designed for efficiently splitting logs. It features a powerful hydraulic system capable of generating 25 tons of splitting force.

Product Overview

Professional Grade Log Splitting

The 25-Ton Hydraulic Log Splitter is a robust, high-performance machine engineered for efficient wood processing in both residential and commercial settings. Featuring a powerful 208cc engine and a 25-ton splitting force, it handles diverse wood types and log lengths up to 26 inches with ease. Designed for durability and operator safety, this splitter provides a reliable, long-term solution for demanding log-splitting requirements.

Engine & Performance

Engine Displacement	208 CC
Max Output	3750 RPM
Fuel Tank Capacity	2.6 L

Hydraulic System

Ram Force

25 tons
Splitting Force

Cycle Time	16 sec
Hydraulic Capacity	6.5 gal
Oil Capacity	16 oz

Splitting Capacity

Max Log Length	26 in
Wedge Size	8 in
Replaceable Wedge	Yes

Logistics & Dimensions

Weight

Type	Weight (lbs)	Weight (kg)
Net Weight	439	199
Gross Weight	509	231

Carton Size 75" x 18.7" x 29.1"

Container Loading 72 units/40HQ
