Overview

High-Performance Power Generation

This 250kVA diesel generator is engineered for reliable and efficient power delivery in demanding environments. Designed with a focus on noise reduction, it provides a super silent operation suitable for sensitive locations. Built with high-quality components, this unit ensures durability and consistent performance for mission-critical applications.

Technical Specifications

Rated Capacity

250 kVA
Capacity

Operation Type

Super Silent

Components

Engine Technology	Diesel
Alternator	Leroy Somer

Features

Key Features

- Super silent operation
- High-quality component construction
- Reliable power output
- Designed for durability
