

25.2V 15A Lithium Polymer Battery Charger

This lithium polymer (LiPo) battery charger is designed for 6S (25.2V) battery packs, delivering a 15A charging current. It is suitable for various applications requiring efficient and reliable charging of 24V battery systems.

Product Overview

High-Performance Charging Solution

This 300W battery charger is engineered for reliable and efficient power delivery to lithium polymer, LiFePO₄, and lead-acid battery systems. Designed with a durable aluminium alloy housing, it offers robust thermal management for consistent performance. It is an ideal charging solution for electric motorcycles, scooters, and e-bikes, providing a stable 25.2V output at 15A.

Technical Specifications

| | |
|--------------------------|---------------------------------------|
| Output Power | 300 W |
| Output Voltage | 25.2 V |
| Charging Current | 15 A |
| Input Voltage | 110-132VAC / 200-264VAC |
| Compatible Battery Types | LiPo, LiFePO ₄ , Lead Acid |

Physical Properties

| | |
|------------------|------------------|
| Dimensions | 135 x 90 x 50 mm |
| Net Weight | 0.9 kg |
| Housing Material | Aluminium Alloy |

Compliance & Support

Certifications

CE • RoHS

Warranty

12 months

Applications

Primary Applications

- Electric Motorcycle
- Scooter
- E-bike
