

25.6cc 2-Stroke Gasoline Engine for Brush Cutters

This compact gasoline engine provides a high power-to-weight ratio, making it suitable for brush cutters and trimmers. The 2-stroke engine features a recoil starter, carburetor for efficient fuel delivery, and durable construction for demanding environments.

Overview

Compact Power for Brush Cutters

The TU26 is a versatile 2-stroke gasoline engine specifically engineered for brush cutters and small power equipment. It offers a high power-to-weight ratio, ensuring efficient performance while maintaining a lightweight profile of only 2.7kg. Designed for reliability, this engine features a diaphragm carburetor for consistent fuel delivery and a recoil starter for dependable ignition in various operating conditions.

Performance Metrics

Maximum Power

0.7 kW

Max Power

Rated Speed

6500 r/min

Technical Specifications

Discharging Capacity	26 cc
Cylinder Diameter	26 mm
Carburetor Type	Diaphragm

Physical Attributes

Net Weight	2.7 kg
Fuel Tank Capacity	0.4 L
