

25mm Cutting Depth 180mm Blade Table Saw

This power tool features a 550W motor with IP54 protection, operating at 230V~/50Hz with a speed of 2950min-1. It offers an adjustable cutting angle from 0° to 45°.

Product Overview

Compact Precision Table Saw

This high-performance table saw is engineered for precise woodworking applications, featuring a robust 550W motor protected by an IP54 rating. Designed for versatility, it offers adjustable cutting angles from 0° to 45° and supports a maximum cutting depth of 25mm. With its compact footprint and durable construction, this tool is an ideal solution for workshops requiring reliable cutting capabilities.
