Product Overview

Professional Welding Cable Set

This 25mm² welding cable set is engineered for durability and reliable electrical performance in professional welding environments. Designed with high-quality CCA conductors, the cables maintain flexibility even at temperatures as low as -25°C while resisting oil, gas, and acid damage. The set comes complete with an electrode holder and ground clamp, making it an ideal choice for automotive repair, construction, and metal fabrication tasks.

Technical Specifications

Rated Current

350 AMP

Capacity

Cable Cross Section	25 mm ²
Outer Diameter	11 mm
Total Length	3.5 m
Conductor Material	CCA

Certifications & Performance

Resistance Properties

Oil Resistant • Gas Resistant • Acid Resistant • Cold Resistant

Certifications	GS
