

26-inch Alloy Frame Mountain Bike with Suspension Fork

This mountain bike is equipped with a 26-inch alloy frame and a suspension fork. It features Shimano 3 x 8 speed gears and disc brakes.

Overview

Built for Versatility and Comfort

This 26-inch mountain bike is engineered with a durable 6061 aluminum alloy frame, providing a lightweight yet robust foundation for varied terrain. It features a responsive suspension fork to absorb shocks and ensure a smoother ride, alongside reliable linear pull brakes for confident stopping power. Designed with practicality in mind, the frame includes dedicated mounts for fenders and racks, making it suitable for both off-road adventures and daily commuting.
