

26-Inch Full Suspension Mountain Bicycle

This is a 26-inch full suspension mountain bicycle. It features a lightweight alloy frame and multi-speed gearing for all-terrain riding.

Overview

Built for Adventure

This 26-inch full suspension mountain bicycle is engineered for versatility and comfort on diverse terrains. Featuring a lightweight alloy frame paired with both front and rear suspension systems, it effectively absorbs shocks for a smoother ride. With multi-speed gearing, this bike provides the performance needed to tackle various inclines and off-road paths with ease.
