

2*8mm SMT Tape Feeder for Siemens X Series

This 2*8mm tape feeder is designed for Siemens X Series pick-and-place machines. It ensures reliable and precise component feeding for high-speed assembly processes.

Product Overview

Precision-engineered 2*8mm feeder module for automated placement machines.

High-Precision SMT Tape Feeder

This 2*8mm tape feeder is designed for seamless integration with high-speed surface mount technology placement equipment. It ensures precise, consistent component feeding to maximize production throughput in automated assembly environments. Built for durability, this module meets the rigorous demands of industrial electronics manufacturing.

Technical Details

Part Number	00141269-02
Feeder Configuration	2*8mm Dual Tape Feeder

Compatibility

Available Feeder Widths

Width	Part Numbers
8MM	00141270 / 00141290 (Single), 00141269 / 00141289 (Double)
12MM	00141271 / 00141291
16MM	00141272 / 00141292
24MM	00141273 / 00141293
32MM	00141274 / 00141294
44MM	00141275 / 00141295
56MM	00141276 / 00141296
72MM	00141277 / 00141297
88MM	00141278 / 00141298

Supported Equipment	Siemens X Series
