Overview

High-Performance 24V Battery Charger

This 600W battery charger is engineered for reliable performance with 8S 24V battery packs. Housed in a durable aluminum alloy casing, it features efficient heat dissipation and thermal management for stable operation. It is an ideal power solution for electric motorcycles, scooters, and e-bikes, offering clear LED status indicators for charging progress.

Electrical Specifications

Key Performance Metrics

29.2 V

Output Voltage

18 A

Output Current

600 W

Output Power

Input Voltage Range

110-132VAC / 200-264VAC

Compatibility & Usage

LED Status Indicators

LED Color	Status
Red	Charging
Green	Fully Charged

Supported Battery Chemistries

Li-ion, LiFePO4, Lead Acid

Typical Applications

Electric Motorcycle, Scooter, E-bike

Physical & Compliance

Certifications

CE

Dimensions	135 x 90 x 50 mm
-------------------	------------------

Net Weight	0.9 kg
-------------------	--------

Enclosure Material	Aluminium Alloy
---------------------------	-----------------

Warranty Period	12 Months
------------------------	-----------
