

29.2V 18A Lithium-Ion Battery Charger

This battery charger is designed for lithium-ion batteries. It provides an output of 29.2V at 18A and features LED indicators for charging status.

Overview

High-Performance Charging Solution

The C600B is a compact and durable battery charger designed for demanding applications including electric motorcycles, scooters, and e-bikes. Housed in a robust aluminium alloy enclosure, it features efficient heat dissipation and supports multiple battery chemistries, including Li-ion, LiFePO4, and lead-acid. With a 500W output power and intelligent LED status indicators, it provides a reliable and safe charging experience.

Electrical Specifications

Output Performance

29.2 V Output Voltage	18 A Output Current	500 W Power
---------------------------------	-------------------------------	-----------------------

Input Voltage Range

110-132VAC / 200-264VAC

Compatibility & Standards

Certifications

CE • RoHS

Supported Battery Chemistries

Li-ion, LiFePO4, Lead Acid

Physical Characteristics

Dimensions	135 x 90 x 50 mm
Net Weight	1.35 kg
Enclosure Material	Aluminium Alloy

Logistics & Support

Typical Applications

- Electric Motorcycle
- Electric Scooter
- E-bike

Warranty Period

12 Months
