

3-Inch Gasoline Water Pump

This gasoline water pump is a portable and powerful tool for efficient water transfer. With a 5.5 HP gasoline engine, it delivers reliable performance and high flow rates, ideal for irrigation, construction sites, and emergency water removal.

Overview

High-Performance Gasoline Water Pump

This 3-inch gasoline water pump is a portable and powerful tool designed for efficient water transfer in agricultural irrigation, construction sites, and emergency water removal. Featuring a robust 5.5 HP gasoline engine, this pump delivers reliable performance and high flow rates. Its durable construction ensures longevity, while the compact design allows for easy transportation and storage.

Performance Metrics

Flow Rate

60 m³/h

Flow Rate

7 m

Suction Height

30 m

Lift Height

Engine Specifications

Engine Details

Feature	Specification
Engine Type	GX160 (5.5HP)
Displacement	163cc
Engine Oil Capacity	0.6L
Fuel Tank Capacity	3.6L

Technical Specifications

Connection Size	80 mm
Pump Type	Self-priming pump

Physical Dimensions

Gross Weight	25 kg
Dimensions (L*W*H)	510*440*435mm

Key Features

Product Highlights	Easy operation, Low oil consumption, Excellent quality control, Portable
