

3-Ton Double Pump High Lift Car Jack

This 3-ton car jack features a double pump mechanism for efficient vehicle lifting. Its high-lift design provides an extended lifting range suitable for a variety of vehicles.

Overview

Professional 3-Ton High Lift Jack

This 3-ton double pump high-location jack is engineered for rapid and efficient vehicle lifting in professional automotive environments. The dual-pump mechanism significantly reduces the number of strokes required to reach maximum height, streamlining maintenance and repair workflows. Built with durable materials for long-term reliability, it provides a stable and safe lifting solution suitable for a wide range of vehicle types.
