

3000W Gasoline Generator Set with 220V Outlets

This gasoline generator set provides a reliable 3000 Watt output. It includes AC 220V outlets, a circuit protector, and an AGX200 engine with oil alert.

Overview

Reliable Power Generation

The AWT4800(E) gasoline generator set is a robust power solution designed for versatile applications. Featuring an air-cooled 4-stroke engine and a 15L fuel tank, it provides consistent performance with a maximum output of 3.0kW. Equipped with both recoil and electric starting systems, it ensures ease of use in various environments.
