

300kg Capacity Stainless Steel Industrial Washing Machine

This industrial washing machine is constructed entirely from stainless steel. It has a 300kg capacity and is designed for heavy-duty use.

Product Overview

Industrial-Grade Washing Performance

The BSX series industrial washing machine is a robust, horizontal-structure unit designed for high-volume laundry operations. Constructed entirely from high-quality stainless steel, it ensures durability and resistance to harsh industrial environments. This semi-automatic machine offers high efficiency and low noise operation, making it an ideal solution for hotels, large-scale laundries, and garment processing facilities.

Technical Specifications

Load Capacity	300 kg
Series Capacity Range	15kg to 400kg
Heating Options	Steam, Electrical
Operation Mode	Semi-automatic
Structure	Horizontal

Key Features

Performance Highlights

1 High Efficiency	1 Low Noise	1 Low Consumption
-----------------------------	-----------------------	-----------------------------

Material	Full Stainless Steel Drum and Frame
----------	-------------------------------------

Compliance & Logistics

Certifications

CE • ISO 9001

Packaging	Wooden box
